COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 06/15/22 at 1630 hours:

- 9,169,339 total confirmed cases.
 - 110,437 Delta
- 91,107 total deaths.
 - 215 Delta
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.

Risk Levels	Little to None		Minor	Moderate	Major		Extreme

Weather Key Points

Regional Operations Center

Western Region

Monday, June 20

- Temperatures will steadily warm for much of the state through the week and into the weekend, with moderate to locally high heat risk impacts developing for many inland areas
 - Afternoon temperatures of 100 to 107 degrees are forecast over much of the Central Valley beginning Tuesday and persisting through the weekend, while readings of 105 to 115 degrees develop across the southern deserts (locally approaching 120 degrees for Death Valley)
 - Areas closer to the coast will also see moderate heat risk impacts Tuesday and Wednesday as temperatures warm well into the 90s before cooling for late week
- Fire weather conditions will remain locally elevated over the next 7 days with gusty winds expected across many mountain and foothill locations of Inland and Southern regions
 - Gusty winds will also spread over much of the Sacramento Valley Monday night into Tuesday, bringing elevated fire weather conditions
 - At this time, widespread critical fire weather conditions are not expected
- Scattered showers and thunderstorms are forecast to develop across southern and central California Wednesday through Friday
 - At this time, widespread rainfall is not expected but localized heavier amounts and gusty winds are possible near any thunderstorms
 - Widespread burn scar impacts are also not currently expected

Monday

Tuesday

Wednesday

Green	Level 0	No Elevated Risk
Yellow	Level 1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	Level 2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red	Level 3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	Level 4	Very High Risk for the entire population due to long duration heat, with little to no relief overnight

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Monday, June 20

6-10 Day Outlook (June 25 - June 29)

Temperatures

- Above normal temperatures are favored statewide

Precipitation

- Below normal precipitation is favored for much of northern and central California, with above normal precipitation favored across the south

8-14 Day Outlook (June 27 – July 3)

Temperatures

- Above normal temperatures are again favored statewide

Precipitation

- Below normal precipitation is once again favored over northern and central portions of the state, with above normal precipitation slightly favored across southern California

Impact Level Definition

1. **Impactful weather is not expected.**
2. **Potential threat to lives and property if no/incorrect actions are taken.**
 - a. Localized impacts on commerce possible.
 - b. Includes events that occur frequently.
3. **Potential threat to lives and property if no/incorrect actions are taken.**
 - a. Impacts on commerce possible.
 - b. Includes events that occur a few times per year.
4. **Actions likely needed to save lives and/or property.**
 - a. Significant impacts to commerce possible.
 - b. Includes events that occur infrequently.
5. **Actions required to save lives and/or property.**
 - a. Significant and extended impacts to commerce.
 - b. Includes exceptionally rare events.

OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Enforcement Missions

- **2022-LAW-79175 and 2022-LAW-79182, 06/15/22:** Region IV AC created missions to assist California State Fair & Exposition Police with LEMA support (79175) and TCOMM support (79182) for upcoming California State Fair (July 15-30). **MISSION ONGOING.**
- **2022-LAW-79311 06/19/22 At 0848 hours,** IERCC contacted CSWC and advised of an inReach activation at coordinates 34.262871,-117.746465 3 which plots to East Fork Trail at Allison Gulch Trail along the San Gabriel River, Sheep Mountain Wilderness, Los Angeles County. IERCC advised the RO activated the device on behalf of a third party who injured themselves hiking. The injured party was described as a 25-year-old female who “busted” their knee and cannot walk. IERCC advised the injured party had two other people in her group who were with her. LDO contacted Los Angeles County DOC and forwarded the pertinent details and incident data-link. IERCC contacted LDO to pass along that the RO was departing the area, but the injured party was remaining at the original coordinates. LDO contacted Los Angeles County DOC to pass along the information as the data-link information provided would no longer be accurate. Los Angeles County DOC advised the San Dimas Station was handling the incident and to contact San Dimas Station for follow-up. **UPDATE:** At 1010 hours, LDO contacted LASO San Dimas Station for an update. LASO advised LDO AIR5 was enroute to aid the injured hiker. **UPDATE:** About 1056 hours, IERCC advised injured hiker had been rescued and transported to a local hospital for treatment. **Mission Closed.**
- **2022-LAW-79321 06/19/22 At 2110 hours,** IERCC contacted CSWC and advised of an inReach activation at coordinates 34.771991,-119.785631 which plots to an area along the Sisquoc Creek northwest of the Sisquoc Trail in the San Rafael Wilderness, Santa Barbara County. IERCC advised it was an SOS activation and there were no further details. IERCC said they were trying to contact the RO for additional information. LDO contacted Santa Barbara County SAR Coordinator who indicated IERCC had already provided the initial details of the incident to them. Santa Barbara County SAR Coordinator advised she had activated their SAR team; however, was attempting to contact the RO to assess the urgency of the situation (i.e., helicopter rescue vs. ground support). It was later learned the group in distress were four motorcyclists who ran out of water. The Santa Barbara County SAR Coordinator advised once contact was made with RO a plan would be developed. **UPDATE:** On 06/20/22, about 0140 hours, Santa Barbara County SAR Coordinator advised SAR Teams reached the group via helicopter, provided necessary supplies and directions to exit the area in the morning. **Mission Closed.**

Cal OES MISSION TASKINGS

Cal OES Missions

- **2022-CalOES-78230 (New Mexico EMAC):** 1 iSat phone for EMAC deployment to New Mexico.
- **2021-TACCOM-061621 (OCFA Testing):** Sonim Kit HQ3 assigned to OCFA, to test Android phones with ATAK for fire season. ETA Return is 06/21/22. COMC monitoring. Contacted Assignee will advise on exact date of return for the resource.

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
